

Kinney Drugs, in partnership with the Vermont Health Department, will be holding a COVID vaccination clinic on Sunday, March 7 at Spaulding High School. The event will run from 9:00am – 6:00pm and is set up to accommodate 1,000+ vaccinations. In order to maintain safe traffic flow in the area, Ayers Street will be limited to one-way traffic for those that are attending the clinic. Traffic will be directed from Ayers Street into the SHS parking lot for the vaccinations and exiting out of the south driveway to be routed to either West Patterson Street for northbound traffic or Circle Street for southbound traffic. Residents of Ayers Street will be able to travel in either direction. Ayers Street will be closed to northbound traffic at West Patterson Street.
